Security and Access

- Hotspot (Wi-Fi);

- Vibration & Crash Detection;

- Smoke/ Fire Detection;

- Alarms and Triggers;

- Log & Reports;

Energy Efficiency

- Energy consumption control;

- Batteries management;

- Renewable energy management;

- Maintenance rounds optimization;

How Can We Help

Measure Anything

KNX Server enables you to precisely measure the consumption of any device.
Predefined Measurement Units are W, kWh, V, A, %, VA, kVAh, VAr, kVArh, cosφ, Hz, L, m3, m3/h, ºC, lux, tanφ, unit.
Need additional measurement units?
Talk to us.

Control Everything

Control your equipments using options such as RGB, Percent, On/ Off, Set Points, Timers, and others.

On Top Of Your Business

Get notifications for every relevant event as, for example, under or over specific measurement values.

Automate Your Daily Routines

Establish Rules to control your devices.
You can schedule actions, or create system automations based on readings from other devices.

Powerful Reporting

Create activity reports for each device individually or by combination of various circuits and criteria.
Build custom reports by selecting which devices to analyze for a given time period.
Compare different devices, or device combinations and evaluate the efficiency of your system.
